Ms. Tracy MacLeod
Laurentian University Development Office
935 Ramsey Lake Road
Sudbury, ON, P3E 2C6

Dear Ms. MacLeod:

Re: Donation towards supporting mental health services at Laurentian University

We are proud Laurentian University Alumni who have been personally affected by mental health challenges related to the pursuit of post-secondary education. As a result, we recognize the importance of making mental health services accessible to all students and appreciate the financial barriers associated with providing these essential health services.

Building upon commitments made by Laurentian University student associations to improve mental health services on campus, we wish to make a monetary donation of \$20,000 towards increasing knowledge of and access to mental health support at the University for the 2018/19 academic year.

Our donation is conditional on the resolution of a minor property boundary issue affecting the University and our home at 2115 South Bay Road. We are prepared to convey 600 square metres of land from our residential property to the University in exchange for 400 square metres of land from the University to resolve the nearly 15-year old encroachment that we discovered and brought to the University's attention. The location of the exchanged parcels of land would be subject to further negotiation. Nevertheless, our proposal is guaranteed to result in a net land gain for the University. We are happy to cover all expenses associated with the proposed land exchange.

Please contact us before November 16, 2018 to discuss our donation towards improving mental health services at Laurentian University.

We look forward to supporting other University initiatives in the future.

Sincerely,

James A.G. Crispo, Laurentian B.Sc. Biochemistry '07 and Laurentian M.Sc. Chemical Sciences '09
Dominique R. Ansell, Laurentienne B.Sc. sciences biomédicales '07 and Laurentian M.Sc. Biology '10
